

Multi-core Planar Tube

Characteristics

- This flexible, multi-core tube is made of polyurethane (UQ) or soft polyurethane (UCQ).
- The multi-core tube is suitable for air supply to multiple drives.
- For the black 2 core tube, the discernment line is printed on one tube to prevent a piping mistake.
- The useful cut marks on every 500mm are printed.
- Tubes with 3-6 Cores, different type of Arrangement (Parallel or Pyramid Type) and 10-Color Selection are available as make-to-order products.

*1. The value of max. operating pressure is measured at 20°C and 65%RH. When Tubes are used in different conditions, consider a safety ratio of the pressure with an enough margin, referring to Burst Pressure Curve. When Tubes are frequently swung and bent, there is a possibility of generating heat between molecules and damaging the products.

*2. Color selection with marking △ is available as a make-to-order product.

Producible core numbers & arrangement as make-to order products

Equal tube dia.

- Parallel arrangement: 3-6 cores

- Pyramidal arrangement: 3,5 and 6 cores (Special-made)

Unequal tube dia. (Special-made)

- 2 and 3 cores only (Parallel arrangement only)

Burst Pressure Curve (Reference Value)

Detailed Safety Instructions

Before using the PISCO products, be sure to read the "Safety Instructions", "Common Safety Instructions for Products in This Catalog" on page 13 to 16 and "Common Safety Instructions for Tubes" on page 66.

- ⚠ Caution : 1. When the tubes are difficult to split into each core, cut the tube edge between each core around 5mm with a cutter.

RoHS The products listed in this page are ECO-friendly products.
* Please refer to page 4 for the details of ECO-friendly products.

Caution

* (4) : Replaced with Tube length

* (5, 6, 7, 8, 9, 10) : Replaced with Tube color code.

* The combination of Black color with 2 cores is the only standard item and the other colors are available as a make-to-order product.
